Tosca-certified QA Automation specialist with **7+ years of experience building scalable test** frameworks across SAP modules including REFX, Fiori, GRC, MDG, and SuccessFactors. Proven track record leading cross-functional QA teams, partnering with developers, business stakeholders, and SAP consultants to deliver defect-free releases on schedule.

SKILLS

Test Methodologies	Waterfall, Agile/Scrum
Test Management & Defect Tracking	HP ALM, JIRA, JAMA, Confluence
Software Knowledge	Tricentis Tosca (DI, DEX, TDM, API), SAP (FIN-REFX, Fiori, GRC, MDG), SuccessFactors, CI/CD & DevOps, Jenkins, Azure DevOps, SQL, Microsoft Office Suite (Excel, Word, Outlook, PowerPoint)
Test Documentation	Test Management, Test Strategy, Test Planning, Traceability, Defect Triage Report, Test Log, Test Summary Report, Requirements-to-test translation, Stakeholder reporting
Soft Skills	Teamwork, Team Leadership and Mentoring, Task Delegation, Written and Oral Communication, Analytical Thinking, Problem Solving, Time Management and Multitasking

EXPERIENCE

Siemens Healthcare Limited (Varian) — Software Automation Tester — Canada Jul 2025 - Oct 2025

- Engineered end-to-end Tricentis Tosca verification scripts for a regulated medical CRM to reduce manual validation cycles by 40% by automating patient and medication workflow coverage.
- Executed nightly automated regression pipelines in Azure DevOps to maintain 0 SLA breaches by scheduling post-deployment runs and configuring failure alerts

Vodafone Intelligent Services — Automation Test Analyst — India Aug 2017 - Mar 2025

- Developed 200+ reusable Tosca test scripts across SAP FIN-REFX, Fiori, GRC, MDG, and SuccessFactors, cutting manual regression effort by 30%+ and accelerating release cycles across a multi-module SAP landscape.
- Built scalable Tosca frameworks incorporating DI, TDM, and DEX modules, enabling parameterized data-driven testing that reduced script maintenance effort by standardizing reusable test components organization-wide.
- Directed end-to-end test coordination for 6 concurrent releases to improve on-time delivery by 15% by managing test plans, estimates, risks, and execution timelines across integrated platforms.
- Developed a full-cycle automated regression suite for SuccessFactors to validate 1000 user records by automating employee data workflows and critical HR scenarios.
- Integrated Tosca with Jenkins CI/CD to reduce manual release verification effort by 50% by enabling continuous regression execution on every build.
- Administered Tosca environments end-to-end license management, user access, server configuration, and version upgrades—ensuring 99%+ tool availability for a team of 12 Testers
